Chapter 1

first chapter

1.1 A first section

1.1.1 nesting things out

When thinking about nesting levels, fractals become an essential conecept...

Chapter 2

second chapter

2.1 A first section

2.1.1 nesting things out

A weird thing, is that the definition of order is discrete in matter,
that being a child of something gives a rudendant yet unique identity.
We can have tow first subsections 1.1.1 2.1.1,
just if their parents are unique. As if uniqueness is inherited
